

Shifted Southern Oscillation Index of Lower Tropospheric Temperature

SOI — SOI — Temp

"IF there are no major climatic disturbances, temperatures will drop around the end of 2010." They did.

Temp anomaly

MSU data from vortex.nsstc.uah.edu/data/msu/t2lt/uahncdc.lt

IF solar effects such as sunspots drive the climate, 2011 will be the beginning of a long term cooling trend.

SOI Data from www.bom.gov.au/climate/current/soi2.shtml
